To whom it may concern,

This is a submission for a USAC E-Rate form 471 out of window filing waiver. I, Jonathan Cahal, completed a form 471 (Form #191038075) for FitKids, Inc. DBA Champion Schools (BEN #17004807) to the point of review and certification on the night of Tuesday, March 26th, 2019 with the full intent of finishing the process the following morning before the deadline of Wednesday, March 27th, 2019. However, on the morning of the 27th, a technological issue at one of our campuses was causing a disruption to a pre-scheduled state-mandated standardized testing session. This issue had to be resolved with priority and was not corrected until after the filing window had closed. I am the only person within my organization that could complete both the tasks of fixing the IT issue and certifying the form 471, thus the form was not certified until this morning, Thursday, March 28th, 2019. Please allow this short period outside the filing window to be waived and for this form 471 to go through the process of being approved. The funds requested in this form 471 are needed to support our schools growing technology infrastructure.

Sincerely,

**Jonathan Cahal, IT Director**
